If you are Entering or Returning to Japan

Trial operation will begin at Kansai Airport Quarantine Station on February 7, 2022. At present, only persons entering Japan at Kansai International Airport will be able to use it.

Fast Track is available

Currently, quarantine procedures upon arrival at the airport could still take some time due to the situation with the Omicron variant, even if you have registered via Fast Track. Your understanding is appreciated.

This app can be used for some quarantine procedures before you enter Japan.

Fast Track Procedure

Online, before entering Japan Install the app

https://mysosp.page.link/sfY2kRrviv4t4eFy7

MySOS Exclusive QR code

2 Register via the app

Follow steps as shown in the app

Question -naire

Pledge

Vaccination certificate

COVID test certificate

→ Register

⟨Review in progress⟩

3 Registration complete, then review process

The Quarantine Documentation Center will review after all documents are submitted.

4 Review is complete

After documentation review is complete, the app screen will change from red to green.

Please show the screen to the quarantine officer at the airport.

⟨Review in progress⟩

Upon arrival at airport

· Confirmation of MySOS app download

- · Fill in the questionnaire and Pledge
- Confirmation of vaccination certificate
- · Confirmation of test certificate

Just show your screen to complete these steps!

Show green screen

Quarantine station

You may not be able to register a test certificate less than 72 hours prior to departure.

The screen will change to yellow after you have finished registering and checking your questionnaire, Pledge, and vaccination certificate. If that happens, please show the yellow screen and your test certificate (paper version, etc.) at the quarantine station.

Note: The option of relaxation of quarantine measures based on presentation of a vaccination certificate is currently suspended. Please select "No" regardless of your vaccination history.
